

PEG-814-07 SUPER PLUG

PKG: 40#/50

DESCRIPTION

PEG SUPER PLUG is a proprietary, multi-blend, one-sack plugging agent designed to solve the most difficult lost circulation problems. PEG SUPER PLUG's wide particle size distribution and chemical formulation offers both water and oil dispersible properties. Pills prepared with PEG SUPER PLUG are easily mixed and pumped and dewater quickly once squeeze pressure is applied to the lost circulation zone.

PROPERTIES, TYPICAL

Appearance	Black powder
pH, 2% in water	10 – 11.5
Compacted bulk density, lb/ft ³	35 – 40

SCREEN ANALYSIS, TYPICAL

U.S. MESH	30	60	100	200	325	-325
% RETAINED	8	25	15	35	12	5

ADVANTAGES

One-sack blend easily mixed thru mud hopper

Self-suspending—can be mixed and stored before use

Broad PSD range and type of particle to bridge and plug

Easily dewater to form instant plug

Non-damaging and non-toxic
